

THE AUTHOR'S ANGRY MEMORANDUM

WHAT MADE JS ANGRY?

- At age 84 and a very special background, many things infuriate him:
 - A World Gone Nuts
 - ▲ North Korea – A country with no brains, no cash, no food which can actually cause Armageddon on a moment's notice.
A member of the important “Nuclear Club”
 - ▲ Iran -- A country with a burning desire to hasten the occurrence of Armageddon (with Allah providing for “Death to America” and “Final Solution” for Israel)
A near-future member of the “Nuclear Club”
 - ▲ Remnants of the Russian Empire -- Cuba, Venezuela, vast numbers of smallish Totalitarian regimes mourning the sinking of the mother ship (1991) and arrival of insane new believers: S. Africa, Chile, and many others.
 - ▲ International “World Government Like” Organizations -- Dysfunctional U.N. and its myriad outfits not one of which has any decent idea about any function they can actually perform

We did not mention China to avoid punishing the reader with numerous devilish and laughingly insane characteristics (including insertion of chips in peoples' brains, TikTok culture and central planning – guess which is the worst.)

Nothing to really worry much. All the above can be gotten used to. Don't kick the dog, have a drink and commiserate with other old people.

WHAT MADE JS ANGRY (continued)

- A world that was and is thankless for everything that the U.S. sheriff did for all winners and losers in the 20th Century's three World Wars
 - ▲ The U.S. Killed – Ottoman and Austro-Hungarian Rotten Empires – Wannabe Kaiser's Empire Dream in First World War – Rotten Russian Empire
 - ▲ The U.S. Killed – Seriously prevented the Brits and Totalitarian French to repeat First World War National-Socialist Transgressions Beast in Second World War
 - ▲ Freed up numerous countries from the Totalitarian Soviet domination and freed peoples from Colonialists rule in a prolonged WWII (46 years, 1945-1991)
 - ▲ Protected trade routes and acted as the "Economic engine" for the entire world economy

Nothing to really worry about. So what, the European appeasers have always been thankless. Appeasers tend to always encourage the Totalitarian swine to commit atrocities using "All Means Necessary" and of course "For the Common Good." Do not kick the dog, have a drink and commiserate with other oldsters.

WHAT MADE JS ANGRY (continued)

- We can continue to whine and moan about a plethora of issues, events, practices that can drive an old fellow nutty. But we won't. We will focus on:
 - ▲ BEING ANGRY ABOUT ISSUES/EVENTS/PRACTICES THAT WE MAY, IF WE ARE LUCKY, HAVE SOME IMPACT, EVEN IF IT IS SMALL...
 - ▲ TO FOCUS, WE NEED TO INCORPORATE JS' BACKGROUND.
 - JS IS A HOLOCAUST SURVIVOR
 - HE CLAIMS THAT HE DOESN'T HAVE A VICTIM'S BONE IN HIM.
HE DOESN'T CARE IF THIS CLAIM IS NOT BELIEVED.
 - IN JS' WORLD VIEW ('WELTANSCHAUUNG' – HE LOVES THIS WORD):

"THE HOLOCAUST IS THE WORLD'S BIGGEST CRIME EVER:

- IT IS A CRIME AGAINST JEWS BY VIRTUE OF WHAT WAS DONE
- IT IS A CRIME AGAINST HUMANITY BY VIRTUE OF HOW IT WAS DONE
- IT IS A CRIME THAT IS INEXPLICABLE BY VIRTUE OF WHY IT WAS DONE "

(CHRISTINA STERNBERG, JACOB'S WIFE)

JS BACKGROUND (At a Glance)

- JS Became an Israeli Paratroop Officer
A fact that is a far cry from a victim's outlook. A non-victim can express real sorrow but cannot immerse himself in pity, victims do.
- Given the drubbing that Israel gets from international organizations and worldwide media, no wonder that JS is quite angry at the world – note the rush to re-sign the Iran Deal ("P5 + 1, 2015).
- It is Iran, its surrogates and big power sponsors that clearly indicate that the Holocaust is not fully over.
- Given European eagerness to do business with Iran clearly indicates the persistent tendency of Europeans (real thankless to the U.S. Sheriff) to support the Iran deal. The Holocaust wake has left incredible intellectual garbage to be cleaned.
- There exist overriding insane ideas that need to be rejected to avoid implementation. It is simple to comprehend: Do not let Totalitarians cartels (parties, countries, Davos attendees, dystopic hypochondriacs of a wide variety and the fully Woke) make you drink their Kool Aid.

JS BACKGROUND (Continued)

- To amplify JS' issues, JS meets and MARRIES THE DAUGHTER (CHRISTINA TROLLER) OF A WORLD-CLASS GERMAN AERODYNAMICS SCIENTIST.
[A Memoir "Trollers' Wars" provides the detailed story]
- A vast "Jewish Problem" develops:
 - Jacob's parents are ready to sit in mourning given Jacob's marrying a non-Jewish woman. It is resolved by her conversion to Judaism.
 - Chris' father disinherited her for marrying a Jew.
- It turns out that Chris' father has Jewish origins and that Chris' grandfather, born Jewish, converted to Catholicism, died in the Theresienstadt Concentration Camp as a "Prominent Jew" (a Nuremberg Law classification).
- Chris' father has a strong Holocaust connection:
 - His father dies in a concentration camp
 - He was, as solid research shows, a major contributor to U.S. Defense with a President Roosevelt Commendation ("Every ship and plane, military or civilian, has Troller's invention embedded").

At the end of the day, Chris has been connected to five Holocaust characters – Jacob, Jacob's mother and father, her own father and grandfather – all of whom she thoroughly knew (even the grandfather she never met, provided an incredible letter collection covering day by day his Hell and his courage. See Trollers' Wars manuscript)

CHANNELING THE JS ANGER

- To be realistic, it is probably advisable to eliminate channels (types of anger that JS can do nothing about.)

Pure Weltschmerz is just a folly. Hence:

- Eliminate many large-scale geo-political angers producing bellyache (e.g., N. Korea, the Nuclear Bazaar, Zimbabwe going berserk, etc.)
- Laser focus on Jewish organizations who are:
 - Advocating/advising/favoring BDS (Boycott, Disinvest, Sanctions) on Israel
 - Touching on the obnoxious blood libel “Apartheid in Israel.”
 - Incorporating the Holocaust Centennial Memorial in a large-scale shindig sponsored by the U.N. or any subgroup of the U.N.
 - Urging to educate young Jews to join Totalitarian cults prevalent in higher learning institutions
- The above requires Picking Real Fights, and the Availability of High-Level Skills in Executing Intellectual Wars.

- The relatively combative tone above hinges on the following facts – as JS views them:

1. The set of events popularly known as “The Holocaust” is largely misunderstood – EVEN BY WELL-EDUCATED PEOPLE.

The Holocaust events are not just “Some Nazi bastards killed six million Jews.”

2. To affect the better understanding of the Holocaust requires the attainment – to a better extent – of what happened, how it happened and the most difficult question, WHY IT HAPPENED.
3. There is no lack of raw facts (“data”), in numerous highly organized repositories run by governments, academic institutions, think tanks and the like. These facts are all accessible to individuals, victims’ relatives and researchers.

Vast sums are spent to keep the data in the best order.

There is no lack in published materials (articles, books, documentaries, films) providing “Information” – assigning meaning to the data.

There is no lack of published materials providing opinions and conclusions serving polemical “Intelligence” re all aspects of the Holocaust.

With all the above data, information and intelligence availability, HOW COME THAT THE HOLOCAUST IS MISERABLY MISUNDERSTOOD?

It is possible and likely that the question “Why” did the Holocaust happen is mired in the FEAR OF RESEARCHERS FINDING OUT HOW REALLY LACKING THEY WERE IN SPECIFYING THE BACKGROUND LEADING TO THE SINGULAR ATROCITY AND, EVEN MORE TELLING, WILL BE THE FEAR OF SPECIFYING THE GARBAGE LEFT IN 1945 (AND STILL STINKS TO THIS DAY) IN THE WAKE OF THE HOLOCAUST.

In multiple papers, we allude to the refuse that was left by the Totalitarians who caused the Holocaust. Much of the refuse excited a whole bunch of Woke people – highly educated, highly sensitive, clamoring to attain a new world order, a new economic order, at infinite cost, achieving all by literally “tomorrow” and teaching me and mine a lesson in all subjects I have low or no interest. No need to go into detail, they are Totalitarian. For them, the change will be total and the past will all be cancelled.

Bye, bye to the Borg. You have lost every war in the last 200 years but you are still kicking, you are smart and resilient and you’ve won some local battles. You almost won the “Education-of-the-Young.” But, in this area, your cartel will lose.

JS will don dirty clothes and speak dirty (curse in Russian and Arabic). There is no doubt that a strong connection between Totalitarian mind, Totalitarian regimes and deeds lead to atrocities and from there to Holocaust.

AND IT WASN'T JUST THE NAZIS INVOLVED.

One would imagine that somewhere in the vast data reservoirs lie the answers to the three questions: What/How/Why did it happen.

More than that, the first two (What/How) are not extraordinarily difficult, it is the “Why” that provides the bellyache.

It is exactly when enormous data volumes vastly overwhelm you and confusing uncertainties raise their ugly head, that it is exactly the time to put on the tight shoes. They hurt much but they focus you to concentrate on the happy moment that you can take the shoes off after concentrating on some (even tiny) victory and ignoring irrelevant factoids. Please note that JS intends to follow this awful suggestion. He also ran a Tel Aviv marathon (1986) with a sprain, a well swollen ankle. His runner number was 100.

He finished the run in 4:01 hours and enjoyed taking the tight shoes off.

There is no secret in how you do it.

You worry so much about how you make each step that you forget to watch the signs telling you how much you have already covered in distance. The first he realized the importance of this idea was at mile 24 of this race. And “2 miles to go” became a cinch.

WHAT WILL MAKE JS LESS ANGRY?

- To avoid megalomaniac unachievable statements of goals, one has to put on the hurting tight shoes. It helps to focus on small realistic targets.

One way or another, a unique opportunity exists to overhaul the definition of the Holocaust events.

The obvious opportunity is the shortly coming of the Centennial Memorial in 2035 – 13 years from now.

- Without the overhaul in the definition of “The Holocaust” and the Centennial Memorial, not much (if anything) can be learned to avoid repeated atrocities.
 - The obvious re definition must include:
 1. The set of events, popularly referred to as ‘The Holocaust,’ is, by far, THE WORST CRIME IN HISTORY.
 2. The popular notion that confines “The Holocaust” to: “The Nazis Killed Six Million Jews” is misleading in three primary respects:
 - (a.) What was done
 - (b.) How was it done
 - (c.) Why was it done

MUCH NEEDS TO BE ADDED AND WE COVER SOME REASONABLE IDEAS IN A PRESENTATION (Program 2035).

WHAT WILL MAKE JS LESS ANGRY?

- PGC will extend best efforts to pay more attention to the Nazis', And other intellectual geniuses, conception of "subhuman."
- ▲ In the past 8 decades – the enormous project dealing with all aspects of "The Holocaust" is likely to exceed (in effort, cost, in scope and results) any other intellectual project effort ever. And it is not over yet.

The source of the problem of decisively nailing down "Why did the Holocaust occur?" is assumed to rest on the malignant Nazi concept of the existential threat posed by Jews to the Aryan blood purity – a necessary requirement for 1000 years Reich's existence.

- ▲ Even if the thesis has a nanogram of validity, and, even if Jews are to be made incapable of threatening the Aryan blood purity by exile, by massive killing (shooting, gassing, poisoning, etc.) why not just kill the Jews fast and massively? They actually took years and exterminated (like rats, for instance) with maximum torture and humiliation and suffering.
- ▲ There must be an additional pillar underpinning the Holocaust's primary Nazi justification, it has to do with the "science" of eugenics that was sloshing around in the "advanced" and "civilized" countries.

WHAT WILL MAKE JS LESS ANGRY? (continued)

Imagine you meet your friend Ulenspiegel who tells you some of his views:

- ▲ “All you need is “Out of Love of Humanity” (a seemingly good cause) declare that you wish to improve the human race (it makes you feel good to babble about it at tuxedo-clad dinners) and avoid the procreation among “subhumans.) Of course, and surely, one could do the classifying of who is “subhuman” at the same dinner babble (“deplorable,” “irredeemable,” maybe “mannerless” and “twittering at 3 am,” “One of the 72 genders,” “under 5-foot tall” and “unscientific” ...OMG)
- ▲ Being very precise, you’ll seek evidence of “subhumanity.” This could include physical structure (skeletal, nose size, etc.), mental capacity (what is cube root of 64?), knowledge of the Nitsche, Kant and Hegel’s philosophical utterances, etc., etc.

Your like-minded dinner group will connect the rising psychiatric cartel, especially in Vienna, who are well connected to London and New York compadres, publish gobbledygook in some peer review journal. Some of these articles are praised by the profession that gave us, FOR THE MOST PART, all obnoxious solutions for surgical procedures, sterilization (especially for black people), declared Reagan as crazy megalomaniac and all other Republicans as “deplorables” (and Nazis).”

JS knows that logically it is easy to use the widely and “scientifically subhuman” categories after you precisely defined the subhumanity of Jews. And thus, JS will take the opportunity to tell his friend Ulenspiegel to go to somewhere very unpleasant.

WHAT WILL MAKE JS LESS ANGRY (Continued)?

- The thesis that more than just cleanliness of Aryan blood was the key dominating factor resulting in the demented justification for the Holocaust, may actually be valid. Consider:

- ▲ There are, most probably, millions of idiotic ideas, generated by many who educate, govern and regulate, “help the downtrodden” and engage in “science” who actually mean well. We call these “Regular People.” When they have an idiotic idea, the damage they cause is part of an annoyance and can be overcome by regular means (fire some, elect others to replace them, etc.)

For instance, when my little 5-year-old granddaughter could not easily breathe when wearing a mask, she bit a hole through the mask – she lived to tell her mommy, and we all lived to laugh at the geniuses who caused her inventive solution (and we all breathed happily thereafter).

- ▲ There are, most probably, only a few idiotic ideas of big magnitude generated by a few non-regular “geniuses” who either govern or aspire to lead the many “regular” people, with awful consequences.

These big thinkers like to undertake PHYSICALLY “BIG PROJECTS” – Hitler, Stalin, Mao built huge structures, Mao wanted “A Permanent Revolution” (10’s of millions died), Stalin wanted “Sovietization” of the economy (10’s of millions starved). Hitler, the most berserk of this triad, wanted everything big (structures, wars, adoration, and even his tanks to be 10 times the size of his then current best --) and the damage was colossal.

- It is necessary to sift through the post-Holocaust refuse and identify the psychiatric angle that preceded the Holocaust to nail down causality.
- There are, unfortunately, many “appealing” angles in the Totalitarian basket of concepts and gobbledygook. It is not part of the PGC’s mission to be a soft-sciences think tank. But it would not hurt to tickle these learned types with some “Killer Questions,” important and mundane.
 - ▲ Why did Poland have pogroms on Jews immediately past May 1945?
 - ▲ Why did New Zealand (A nice little country, really) publish maps with no Israel on it?
 - ▲ Why did the U.N. Not Punish the Repeated Attackers on Israel over its entire existence (1948 to date) by coalitions of its members?

The above were randomly chosen from a very rich list. You will find more questions scattered throughout the book.

Finally, Why Does AMERICA TODAY BEG VENEZUELA to pump more oil?

Don’t even think about it. You may wind up in an asylum, maybe rooming with Fauci.
