WHY DID HAMAS ATTACK

- The following rapidly generated (instant response) analytical conclusions have led Hamas to attack
 - Previous terror set by “lone wolves” (a homicide enthusiast wearing a vest attacking a bus, knifing passerby and such) did not produce panic and hysteria -- caused arrests.
 - Previous attacks of rocket barrages did not cause (usually) serious reserves call ups.
 - Unlike Hezbollah (treated by military analysts as a more competent army) Hamas wanted to show the will to really “fight.”
 Hezbollah, like Hamas, needed to show size of the attacking force, size of damage, size of killed and wounded.
 - Hamas knows Israel, they wanted political turmoil in Israel (Bibi treated like Trump) and a predictable nearly worldwide idiotic response of condemning self-defense.
 - Swallowing the competition of Islamic Jihad provides higher prestige
 - More money from “indulgencies” (a license to sin) donors.
- Iran, swimming in money, forced timing, size, ferocity to embarrass the U.S. They’ll watch like a hawk how U.S. responds to Iran’s surrogates attack on the U.S. Iran extends and widens the war by attacking oil shippers.
- Test of weapons – Iran gains on drones (the Russians now use in Ukraine).
- “Iran’s success” places her in a position to retard the trend of reproachment with Israel by the Gulf States.
- Surprisingly, Hamas (a Satanic offspring) needs to show how excited they can get by cutting the head off a baby. They also knew how well the heads of Ivy League universities will view their “Heroics.”...
