

THE HOLOCAUST WARS PROJECT
TRIUMPH OF THE RIGHTEOUS

AN INTRODUCTORY PRESENTATION
BY PROJECT GIDEON COMPANY (“PGC”)

Written By: Jacob Sternberg

Triumph of the Righteous

PGC wishes to tell a compelling story which has two parts.

- First is the 2,000-year long process of recreation of a Jewish nation, something that involved much pain and heroics.
- Second, the millennia long, widespread, insane hatred of Jews.

The worst of the Jew haters failed.

- They destroyed themselves in the process
- By destroying themselves, actually helped to recreate the Jewish nation.

THE JEWS HAVE WON A DECISIVE TRIUMPH (5/15/48)

- In spite of the worst crimes in history, the worst century in history, the enormous casualties suffered by many nations, and the Holocaust, the Jews ACHIEVED THEIR GOAL, a country of their own, in their historic homeland. Then it quickly achieved the status of a technological superpower.
- This is an incredible outcome and a story that needs to be told and retold.

Author's First Note

The desire “to do something of some importance in order to cease being a permanent victim” is a noble thought, but is that what you actually want to do?

Bragging and humility helped us. It took a great deal of time to rewrite this paper. And then something happened. The events of Saturday, October 7, 2023, may explain to our readers why we care so much about the Holocaust Wars.

The October 1973 Yom Kippur War had a near catastrophic outcome for Israel. Israeli planes, with nukes, were lined up for takeoff. Heroics, luck, and inspired leadership, was all that prevented the destruction of Israel.

On that October morning, I listened to the news, wrote a one-page will and left a pregnant wife, rushed to the Israeli Consulate in New York, hoping to get to Israel. As usual, the bureaucracy triumphed. I didn't make it to the correct floor. I was prevented from even leaving the elevator. I tried going to the next floor and using the stairs to get in. I was stopped and warned to “behave or else.” I tried logic. I told the guards that I was a paratroop officer and was needed. They had no patience, gave me a severe warning, and sent me back.

I remembered that during the Six Day War I attempted to get to Israel. I only got to Rome and got stuck there. But 1973 was different. We survived, but I recognized the need that an in-depth study was imperative. This led us to a study of the Gordian knot called the Mideast.

There is no saint left in the Mideast. We studied the insane Iran/Iraq wars, the Iraq/Kuwait wars (which gave employment to 11,000 generals in the Iraqi Army). We produced a serious fictional (but not farfetched) war and espionage stories, mimicking current realistic scenarios. In our book "*Applicants for Sainthood*," written more than seven years ago, predicted today's realities. Numerous opinion pieces deal realistically with Iran becoming a member of the nuclear club and participating in an upcoming nuclear bazaar with a cashless, brainless, foodless North Korea.

Hard analysis leads to these conclusions:

- The Third Reich actually "committed suicide" sticking with its insane, demented, cultish, and deterministic "theology" of Aryan "racial blood purity" being existentially threatened by Jews.

In a four-front war, the military and economic 'geniuses', knowing full well that a shortage of fuel, shortage of manpower, shortage of steel and chemicals, continent-wide logistics problems of overcoming the shortages, conflicting demands of military, production and people movement, and the demented attention to detail-perfect administration (documenting lice on the heads of inmates) dealing with extermination of Jews, made the miscalculation of antagonizing the U.S. The U.S. industry built a Liberty ship per day and never missed producing chewing gum and cigarettes. How do you win a colossal war when the SS alone in 1945 had 250,000 Ph.D.'s? The entire British Army had 250,000 soldiers in all of Europe.

- Consider that the Third Reich geniuses haven't learned much from the First World War debacles and received on their brow the biblical Cain sign making them a pariah for extended durations. They'll seek a get out of jail card, as well as other barbaric Satanic offspring.
- PGC has painstakingly developed a list of questions not asked and answers not given. Numerous single subject booklets are devoted to provide information to the reader.
- None of the above will be valuable without professionally prepared educational products.
- In addition to make, use and distribute intellectual products for memorials and important education, PGC will establish joint ventures for documentaries and films.

The Implementation booklets provide how we'll achieve and where will the money come from.

We will try to inform, via our website, our view of the Israeli news currently being a background to our explanation efforts.

- WHAT DOES PGC WISH TO ACCOMPLISH?
 - Tell the story of Gideon which began a long time ago starting with a major triumph in battle and ending much later, after the worst crime in history, with a Jewish nation.
 - Tell the story of the impact of the Jewish triumph on the revived Jewish nation / country. Consider:
 1. Israel is a safe haven for large migration of Yemenite, Ethiopian and many other Jews who now need no “inviting.”
 2. Israel unleashed an uncommon scientific and technical reservoir of talent to become a technological superpower.
 3. Israel delivered a credible message that toying with Jewish lives is nasty, expensive and very unrewarding business. Getting rid of terrorists even in far reaching revenge operations, numerous unannounced punishments destroying plans for future anti-Israel ops even if they seem unceasing.
 - Tell the story of the real impact of the Jewish triumph on the multiple perpetrators of crimes against the Jews.

What does PGC wish to accomplish? (Continued)

- It is possible, and quite likely, and as surprising as it sounds, many immoral, criminal acts by Nazi-sympathizers have become known and they wound up with a biblical Cain imprint on their brow which (for good reasons) they wish to lose.
 1. The German effort to atone (in multiple ways for 78 years already) is very serious. That is widely known.
 2. Much less is known that Poland had serious multi-city pogroms after VE-Day (May 8, 1945). Some idiot entrepreneurs wanted to have a meat factory at the Auschwitz concentration camp site. Poland has in recent years created an atonement program for Holocaust survivors. They are serious and it is never too late to get “A come out of Jail” card.

Rumania and Hungary are making some noises of “Getting out of Jail” cards. Hungary has a special ugly chapter about their ugly behavior at various stages in World War II.
 3. There is a region in the center of South America where Brazil, Argentina, Chile, Paraguay have a huge carved out area that was (and is) a “German Territory.” These gents have not yet thought about redemption. Well, they should ... Argentina should strongly think about it. They had nasty episodes and haven’t done anything about it.

What does PGC wish to accomplish? (Continued)

4. Kill the myth of Jews being a perpetual victim. This myth can only be killed – if and only if – the Holocaust narrative can be balanced between the mourning for the dead and the heroics of Jews and non-Jews.
5. To kill the victimhood myth, it is important to convey to the Jewish young that remembering the Holocaust requires: Clearly knowing what one needs to know, to deduce from that what one needs to remember and from that, what one must remember to assure best effort of non-repetitions of ugly events.

Jews have had a unique ability to remember their past. They never missed “Missing Jerusalem,” every year from way, way back.

- REMEMBER THE DEAD

- The common, popular meaning, of the “Holocaust” consists of the extermination of six million European Jews in World War II by the totalitarian Nazi regime – a cultish, deterministic, insanely dedicated to a near-theological plan for the extinction of the Jewish race.
- There are numerous problems with the above description of the popular meaning of the term “Holocaust.”

PGC’s view regarding precise definitions re Holocaust is rather simple. We repeat:

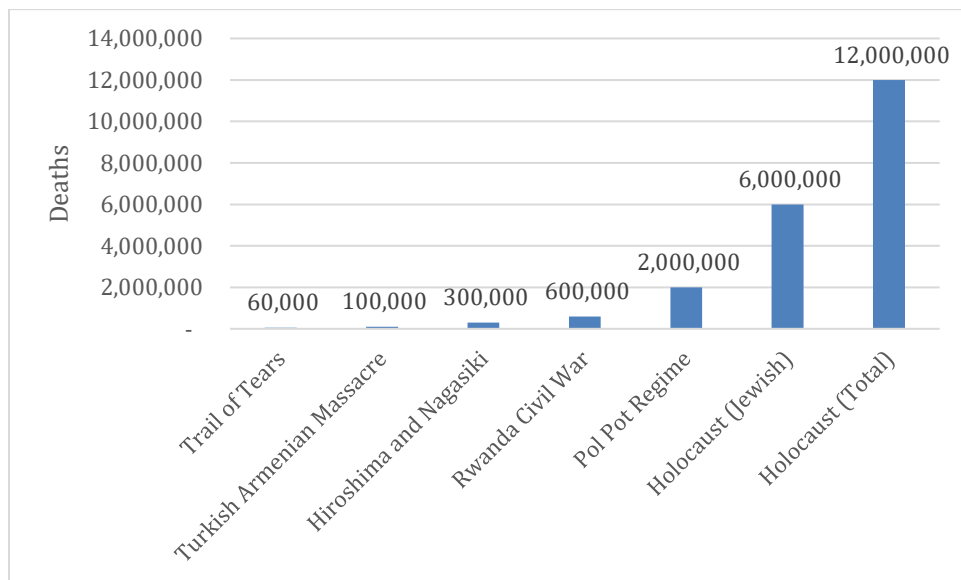

- There are three aspects that we need to satisfy
 - I. What is important to know
 - II. What is important to remember
 - III. What specifically needs to be done to avoid crime’s repetition

To satisfy the above, PGC has decided to:

- First Mourn the Dead. It is the Jewish thing to do, then because we respect the fallen who never wilted, and lastly, they did honor us in numerous ways.

The Holocaust was about more than just numbers.

But the numbers are still important.
Let's put some context on the number "Six Million."

Elderly Holocaust survivors show over a 90% incidence of PTSD

Increased risk of suicide, depression, chronicity of schizophrenia, and development of late-life paranoia

An Important Draft Definition of “Holocaust”

- PGC’s suggested (“Less Consensus” View of “The Holocaust, A Draft ...)

“The Holocaust is the Final Set of events in a long, 2000-year sequence of pogroms, atrocities and genocides directed specifically at Jews in Asia, North Africa and Europe.

Being directed at Jews as a “Race,” it culminated in the extermination of six million European Jews in regions ruled by Germany in World War II (“WWII”), primarily between year-end 1941 and mid-1945.

It is a singular event, which unlike any other massive killing event, involved enormous allocations of resources in a multi-front war, meticulous planning due to significant shortages of fuel and raw materials, shortage of manpower and required continental size handling of difficult logistics.

It was, worst of all, executed by a cult, stubbornly clinging to a near-theological belief’s flimsy excuse for unprecedented hatred, utmost humiliation and maximum pain accompanying exterminations.

In its wake, it left a seriously disoriented Jewish survivor population (in the millions), a vast number of non-Jewish people of honor who couldn’t grasp a country gone berserk, a strange and sick admiration for the Holocaust implementor’s detailed orderliness, paving the way for a smart imitator who “cloaked” subjugation of peoples with Totalitarian/Utopian “Kool Aid.” Subjugation dictators, although like Stalin and Mao, are responsible for tens of millions of dead, they missed the “Holocaust” designation even though their foul deeds lasted for 46 years (1945-1991) for the Soviets and, these days, continued by China.

There is much that can be added – we leave it to phenomenally equipped major institutions.

We cling to the above as a minimum because we wish to highlight that:

- The number of dead Jews far exceeds 6,000,000 if the past “comes marchin in.” The damage to three generations of Jews is huge and cannot be easily estimated.

The refuse is still smelly in the European sewer AND, the appeasers still are eager for Iran to have the bomb and really get Armageddon going. The sheriff that guarded the Europeans' bacon for the whole century is now tired.

- To make the above assertions stick, PGC has generated research papers that deal with further suggestions we have.

What Constitutes a Holocaust War

The First and Most Obvious "Holocaust War."

It constitutes an "Intellectual War," that must be won – it concerns the meaning of the term "The Holocaust."

The Second and Very Obvious War re The Centennial

It is another "Intellectual War" involving multiple Jewish organizations who will (most likely) be at each other's throats. These are serious kerfuffles among muscular organizations with experience in the turf fighting, strong views, significant budgets and experienced lobbying.

The excuse for this fighting will involve "What will the Centennial Seminal Memorial event consist of."

PGC has prepared extensive suggestions for "Waffenstillstand" ("Truce") among Left/Right, secular/religious, Israel affinity differences, because it is a Seminal Event. There is a major source of potential problems involving nations (e.g., Poland, Lithuania, Hungary and, of course, Germany wanting "A Get Out of Jail" card – which we explain at length.

The Third and Obvious War re The Holocaust

It is another “Intellectual War” involving an International Patina – like a non-event – which PGC believes is a disastrous idea for reasons we make great effort to explain in our opinion papers.

Remember the Chinese “Year of the Woman” celebration by the U.N. in China, a country that kills female babies because they will be women!

A major category of a “Holocaust War” consists of potential physical warfare.

- The Middle East does not possess any saintly members.
 - Iran may shortly acquire the bomb
 - Once this happens, resource-rich, even smallish countries, will also acquire bombs, because it is cheaper to buy than to research and make bombs.
 - The “Asylum State” of North Korea and the Armageddon Wishing Iran can easily become a “Nuclear Bazaar.”
 - Israel may have no choice but to take Iran out of nuclear business
 - The Middle East has had insane wars since WWI.
 - PGC is not capable of doing anything about physical wars in the Middle East. The sole contribution it can make at this time is to aggressively convince the Jewish organizations that claim “Tough Love” for Israel (and thus participating in the “Apartheid State” blood libel and its offspring the “BDS” movement) to join a wide array of people and countries who will make it impossible for Iran to attain a bomb.

- The existence of Israel cannot be bargained away and knuckleheads need to be shamed 24/7.
- A ray of hope begins to penetrate the Mideast, more Arab League countries wish to join a brilliant Abraham Accord which now provides the U.S., former stellar sheriff, to affect, again, the reigning in the “Bad-Ass” tombstone region.

THE HOLOCAUST WARS PROJECT

Founders' Background

Project Gideon Company (“PGC”) is now being formed. Three founders have spent much time and very much money to launch the company.

All three have an unusual connection to the Holocaust.

- I, Jacob Sternberg, am a confirmed Holocaust survivor, born at the wrong time and wrong place (1938, Poland).
- My wife, Christina (her Jewish name is Yael) Sternberg is the daughter of a world-class German scientist who ran the Guggenheim Airship Institute since 1931. Yael’s great-grandfather was a rabbi in Prague, her grandfather, born Jewish, converted to Catholicism. Her father, Dr. Theodor Troller II (“TTII”), was brought to the U.S. by Theodore Von Karman (born Jewish, received the First Medal of Science from JFK). TTII received Presidential awards from President Roosevelt.
- Jacob Gostl is the son of Holocaust survivors who suffered lifelong PTSD afflictions, which made Jacob mad for all his life.

All three of us founders, get “Close and Personal” to the Holocaust. It should quite understandably be assumed that we are very angry. It is not just some abstract anger. It is very specific.

In my case, I was hungry (it is called really hungry) cold, and many times quite fearful. I lost my biological father under circumstances unknown.

In my wife's case, it is more complicated. When we informed Yael's father of our intent to marry, he disinherited her. He never told his children of their Jewish origin. I jokingly reminded her (gently) that the general public believes that Jews are not supposed to lose money on their deals ...

In Gostl's case, listening all day to the same ugly recount of events – all very unpleasant – is unadvisable.

- All three of the founders have found out that we can't think of ourselves as victims.

My stepfather had a fine record of heroics during the war. My mother killed an SS man who was going to hurt me. My parents saw to it that my trauma episodes were trained out of me, they always trained me to not fear and stuffed me with knowledge delivered by university professors / tutors.

In Yael's case, when she discovered how diligently her father became a major defense systems inventor and the serious attempts he made to achieve peace with us and most importantly to her, how much she loved my truly heroic parents, she saw to it that we all forgive each other.

- One day, in the late 1960's an Austrian cousin of Yael discovered that a collection of letters from Grandpa – from the Theresienstadt Concentration Camp just “Appeared.” In spite of his age (75), the specific letters created my involvement. The heroics of the old man was pride infusing.

- My wife had the privilege of living with heroic in-laws (in the same big house in NY) and deeply fell in love with them.

My daughter, Alisa Mitkevich, had the privilege of interviewing my mother for many months generating an impressive thesis for Bard College. My wife was aware of my military service in Israel as a paratroop officer. Although I was no big hero, but a very well trained and experienced warrior, and understood that constant chasing of terrorists is enough to never want to be a victim.

- The Yom Kippur War in October '73 convinced my wife and me "To do something" about the permanent attacks on Israel. It wasn't really much we could do, so we focused on the little we could imagine we can contribute. It turned out that we could do more than we just imagined.

BUCKLE UP AND WE WILL TELL YOU.

The three founders were much younger in the early 1970s. That is usually good but insufficient. Do what? We said and started bragging.

All three have some interesting qualities which helped our decision making – all slow and methodical. We start with a little bragging.

1. We all are highly educated both formally and practically.
 - I was a Professor of Operations Research at the Graduate School of what is today NYU-Poly. But prior to the university level, I had an incredible tutored classical education in Austria and Israel.
 - I was an inventor and a CEO of high-tech companies.
 - My wife held serious research positions at GE's Nuclear facilities in Nuclear Production and Nuclear Naval Operations, was an information scientist at Shell and CBS, including senior management positions. She finally migrated to my high-tech companies.
 - Jack was a systems wizard in my high-tech companies, and, in fact, as my number two, he saw to it that we never failed to deliver on any technical assignments. Clients included major U.S. corporations including: ADP, American Express, U.S. Air Force, Burroughs, CBS, Siemens, and giants like IBM, AT&T, and others.
 - None of us, however, has a good enough business deals record for awhile because we weren't good negotiators.
2. Our documentation packets back up the above.

3. We set out the first goal for ourselves: Acquire Knowledge.
- To understand the crime – the worst crime in history – the Holocaust’s what/how/why did it happen
 - How did Jews not wilt and “disappear” after millennia of blood libels and extermination efforts
 - We knew that a major, gigantic research effort was a progress, worldwide.
 - The largest research project, stellar institutions, stellar researchers, who after 7 long decades have not finalized some answers.
 - We started to compile: Questions not asked and answers not given
 - We knew that we are touching raw nerves, probably stepping on some toes, who don’t like it. For instance, the eugenics and psychiatric cartels.
 - We knew that the U.S. – the power that saved the world in three world wars (Yes, three) and a gigantic economic disaster helping losers and winners
 - Who is now a tired sheriff
 - Demented Totalitarians are like mushrooms, always popping up
 - Israel’s success bothers international media and institutions.

4. Luck does come to those who deserve it.

- A lifelong friend of mine – Professor Ben-Zion Penchuk has convinced me that there is a gigantic and important story to tell. He helped us to look not only at the geopolitical obtuse Europe, but urged us to delve deeper into the Totalitarian mind – the midwife of all evil.
- My father-in-law who explained why he bought a ranch – in the middle of nowhere, U.S.A., to continue his work for U.S. Defense, and shared many analyses with us. He died in the year 2000 and kicked the worst century ever in the a – –. For 50 years, he was a brilliant survivalist.
- We know that the project of acquiring a knowledge base as described will be a demanding project.

As a result, we wrote (so far) 12 books, published 10 of them this year in June/July. We have, so far, generated over 50 single issue booklets, multiple opinion books and multiple educational materials. We wanted to have a sizeable asset when the company debuts.

- By recognizing the scope, size, controversies and the dedication required to participate in the multiple kerfuffles that might arise (imagine multiple Jewish muscular organizations fighting over the millennial presentations.)

5. With some chutzpah, we forecasted many obstacles to:
 - Explain all the things we wish to contribute in the Holocaust's millennial presentations.
 - We wish to affect the Holocaust narrative from primarily a tearful event to a balanced tearful and heroic insightful event.
6. We wish to show that the outcome clearly shows that the Holocaust wars were won by the Jews – a strange conclusion.

In 1945, the Third Reich collapsed and, a mere three years later, the Jewish homeland has risen from the ashes, and in a short few years, A WONDERFUL LITTLE COUNTRY.

WHY PGC HAS "GIDEON" IN ITS NAME

- The Jewish Legend Starts
 - The story starts in 1250 BCE. (3,273 years ago)
 - Gideon was a Jewish chieftain, a judge and a prophet
 - He was targeted to be king
 - In a single night attack, Gideon leading 300 tough fighters, annihilated a huge enemy force
 - Thus, creating a historic Jewish legend

It is always a good start if you choose a convenient point to drive the enemy batty.

Triumph of the Righteous

Building a nation is a difficult task

- Building a nation (with a mission and ideology) of stubborn and stiff-necked people is even more difficult. [Exodus 32:9]
- The addition of enemies who are ready and willing to destroy themselves to win, made the Jewish tribes go through long and painful difficulties.
- From the Pesach Haggadah: “That not one alone has risen up against us to destroy us, but rather in each and every generation they rise up against us to destroy us.”

PGC's MISSION SUMMARY

- The Founders of PGC have adapted the following sets of preliminary conclusions re the Holocaust as the starting point.
- The effects of the crimes went far enough beyond just deaths of people, dislocation of populations and pain and suffering for many reasons.
- First and foremost, we want to impact the Jewish Holocaust narrative to one of a winner's narrative.

Generate Massive and Compelling Story Aims to Achieve,
Primarily:

- Widely explain all aspects of the biggest crime ever against Jews and humanity.
- Deny the opportunity of misrepresenting demented / insane explanations of Totalitarian / Malignant / Cult-Deterministic criminals' Kool Aid servings
- Educate, via professionally prepared "Intellectual Products," massively available to memorial events, especially the millennial.
- Assist to get a strong umbilical connection of Jews with Israel

- Assist in tying umbilically the demented mindsets of the Totalitarians to massive criminal atrocities.
- Express a meaningful “Thank You” to those who helped the Jews in critical moments of need.
- Examples for the above are provided in multiple booklets
- Generate a compelling set of stories (from the existing PGC data) that:
Debunks Nazi superiority in military, economic and pseudo-scientific superiority (e.g., psychiatry, eugenics)
- Generate a full explanation of the DEFINITIVE DEFEAT OF the Nazis by
 - (1.) A colossus power – primarily the U.S.A. – supported by Allies
 - (2.) Jewish no-wilt practices
 - (3.) Demented Nazi defeated policy of stubborn will to win with their defeated fourth front against the Jews – no matter how idiotic the policy was.
- We leave the most important objective mission for PGC vis-à-vis a Holocaust explanation is: Attempt to alter the narrative to: A winner narrative by a set of exceptional winners’ stories.

THE “KILLER QUESTION”

Question: You are a startup company. You don't have any employees yet. All three of you founders are each elderly, in decent shape but still quite elderly – Are all the above correctly stated?

Answer: Very nicely, politely stated.

Question: Do you know that the Holocaust Museum in Washington, D.C., Yad Vashem in Jerusalem, hundreds of academic institutions in the U.S. -- and, worldwide, thousands of stellar researchers **have billions of dollars, near-infinite data over 70 years of stellar work? What are you going to add? What haven't they done already?**

Answer: It is truly wonderfully stated. Your recitation of facts is perfect. All the truly wonderful people did and continue to do God's work. **And they have guts and stamina too. Imagine Rich Brownstein who actually watched over 400 Holocaust films. He didn't mind criticizing Spielberg, would you?**

It turns out, however, that all the truly incredible work did not yet lead where I want to be.

Pay good attention.

I. **In all the Holocaust super research efforts, three questions must be answered:**

1. **What happened in the Holocaust?**

Near-infinite data provides a decent answer.

Not really good enough. The popular notion accept “Six Million Jews died in Europe in WWII.”

Please take into account that whoever accepts this popular view tells me loud and clear that:

- Jews weren't just killed; they were exterminated (like rats). We will show the difference.
- The survivor Jews in Europe, many as good as dead, add to the six million counted. The effects on second and third generations of offspring were dire.
- What is worse, are clear lies crept in and were incorporated into the popular discourse.

These lies were not the guilt of researchers. It is due to other reasons which we will attempt to widely cover.

250,000, just SS, are equal in number to all the British soldiers in Europe in WWII.

- The "lie" about the SS. It is not widely known that the membership in the SS was "Ph.D.-laden."

<u>The Facts:</u>	<u>Year</u>	<u>Ph.D.-Degreed</u>
	1933	5,000
	1940	60,000
And in	1945	250,000

They weren't just nitwits screaming orders wildly and having well-polished boots. They constituted, at end, 25% of the SS Corps far greater proportion than Ph.D.'s in the general German populace.

A solid part of the popularly accepted "Jewish Victimhood" stems from this lie.

- The "Lie" that Jews "Just quietly went to their death." When you really know the facts, you know how obnoxious this "lie" really is.

The damn bastards took the period
(9/1939 – 12/1941) compared to (1/1942 – 5/1945)

Exterminated

Jews per day ≈ 150

$\approx 4,700$

We will explain this when we prove that Jewish and Gentile heroics were enormous. More Polish Intelligencia died per day during the Nazi “Learning Period.”

The lengthy answer just touched the explanations necessary.

It is the faulty information that crept into the Holocaust narrative that leads PGC to a stubborn – wide ranging effort to alter, and thus seriously enhance, the factual basis that most likely will significantly increase the heroics vested by Jews and a vast number of Gentiles. If we are right, it will please us much.

We are out to test the theory that will engulf fire to our hair, likely be extreme to many learned people calling us by very unpleasant names (on top of normal cursing).

HERE IS THE TEST:

Is the following true?

1. Given that the Holocaust is a “Singular” set of events which proved to be The Worst Crime in History Against Jews by Virtue of WHAT was Done by the Nazis
2. Given that the Holocaust is The Worst Crime Against Humanity by Virtue of HOW the Extermination was Done
3. Given that The Holocaust Events’ Causality is INEXPLICABLE by the malignant perpetrators of the crimes nor by the Herculean efforts constituting the largest research effort ever.

II. We like to have the test. We will raise the ante further.

Not only do we want to pedantically parse the sentences in the text, we want to remind the reader that **we have not only tons of humility, but we are blessed with necessarychutzpa that here and there helps to open locked doors.**

Buckle up, please.

Here comes the next test.

Is the following true?

1. Given that Jewish tribes always wanted to be a “Nation” having a territory of their own.
2. Given, in the year 1250 B.C.E. they almost made it. Gideon was a Judge, a prophet and an outstanding leader and almost became a king (he reached “Chieftain”). In a historic night battle, he defeated a vast enemy, orders of magnitude larger than the 300 Gideon’s contingent. **He established the long / strong / unforgettable longing for Jewish nationhood.**
3. Given two major, yet relatively short-term Jewish kingdoms, the last ending in 70 B.C. the Jews dispersed in small groupings to multiple lands in Asia, North Africa and eventually in multiple other lands, **the Jews were “Permanent Foreigners” in all the lands they reached. Every year they wanted, on Pesach, to return to Jerusalem, not just in prayer. As “Permanent Foreign Groups,” they faced numerous pogroms, genocides and atrocities and never wilted.**
4. Only one enemy reached the exalted Holocaust status of ultimate enemy of Jewish existence.
5. That enemy risked suicide, blinded by malignant, demented, idiotic racial / deterministic / cultish views in order to exterminate Jews, knowing full well that the effort will sap their meager resources. And it did.

AND, WHAT HAPPENED?
