

I.5 THE HOLOCAUST WARS PROJECT

“THE QUESTIONS NOT ASKED AND THE ANSWERS NOT GIVEN – PART I”

An Opinion Piece

Presented by Project Gideon Company
("PGC")
To Be Shortly Launched

WRITTEN BY: JACOB STERNBERG

**PGC EXPECTS THAT IT WILL
GENERATE SEVERAL OPINION PIECES
ON THE SAME TOPIC**

THIS IS THE FIRST ENTRY.

- “The Questions Fall Under the Following Categories
 - I. “Why Did You Do That?” Referring to:
 - I.1 The Nazis in Germany/Austria
 - I.2 The Nazis in conquered European territories
 - I.3 The regimes in conquered European territories and their supporters
 - I.4 The Democratic appeasers
 - I.5 The international organizations
 - I.6 The psychiatric/eugenics/educational cartels
 - I.7 Anyone in the above categories in the post-World War II, strongly related to the Holocaust events
- To make it very clear, we seek to phrase the questions with unambiguous language (to the maximum possible and hard to achieve).

To achieve the clarity, we extend best efforts to define the crime(s) involved and seek causality for it.

PREFACE

- There seems to be a consensus, prevailing among historians and learned academics at large, that the Holocaust is the worst crime in history. The same consensus has led academics to conclude that the crime is singular in all possible respects.
- For the past **EIGHT DECADES, thousands of institutions and a vast cadre of researchers have attempted** – in the largest ever research project – **to determine the facts and the causes for the Holocaust’s occurrence.**
 - **What Happened?** ▪ **How Did It Happen?** ▪ **Why Did It Happen?**
- As a result of the massive research effort, much is known (and much is verified) yielding near-infinite eyewitness testimony of the crimes committed against several categories of people defined by the Nazis as:
 - A specific race which poses an existential threat to the Aryan race and its empire of the future (The Jews)
 - Any persons who are “subhuman” (mentally and physically)
 - Any person with “aberrate behavior” (e.g., homosexuals, and Roma people)
 - A specific race which is naturally suited for hard work for the future Aryan empire (e.g., Slavs)
- The enormous data acquisition, verification/validation, data mining and making the data and information available and accessible to all, **was much aided by the criminals themselves with an unusual fetish for keeping and preserving all data at all times and at all costs.** Imagine how hard and costly it was without computers.
- We, at PGC – a company to be shortly launched – are dedicated to provide “Professionally-Generated” Holocaust Memorials “Intellectual Products” – to elevate memorials to respect not just the pain and suffering of the victims but provide the enormous heroics to be known and respected.

THE FIRST QUESTION

- Everybody knows (“Tom, Dick and Harry” especially) that the Centennial Memorial of the Holocaust will shortly occur. **Assume that a logical choice would be 2035 being the 100th year of the Nuremberg Laws passage at the Reichstag.** It is only 12 years to go.

Question #1: What will the Centennial Presentation consist of?

True Answer: As of today (2023), nobody knows the answer exactly.

Lame Answer: There is time. The closer we get to 2035, some reasonable suggestions will surface.

Sub-Question

(#1.1): Who is the magician who will decide what to choose among some likely candidate ideas?

Sub-Question

(#1.2): And when will that happen?

- A reasonably calm person, very knowledgeable, suggests to invite “Interested Parties” to a quiet retreat to deal with the Centennial Memorial issue.

This is a good initial answer to Question #1.

The poor soul, selected to handle **Question #2** that follows, is so neutral to all the infighting among the very muscular and dedicated Jewish organizations that he poses no threat to anyone.

THE SECOND QUESTION

Question #2: What information do you need to know in order to provide a superior answer to Question #1?

True Partial Answer: As of today (2023), you must know too many very important information pieces. We first deal with management issues.

The reasons for knowing these information morsels is explained in many ways in the “Knowledge Base” – A very sizeable collection on PGC books, opinion pieces, media coverage and plain ideas to achieve insightful non-ad hoc presentations

- Determine the venues worldwide
- Determine the special political requirements for each venue (Israel, U.S., G. Britain, Poland, Germany, Lithuania, Argentina, France, Ukraine, Russia, Denmark, Canada and others.)
- Determine the independence of the Centennial from international organizations
- Determine the participation of aggrieved non-Jewish peoples in the Centennial Memorials
- Establish a “Jewish Medal of Honor” with gradation proportional to risks taken by non-Jews. Establish a “Thank You Project.”
- Establish a working relationship with sponsors
- Set up a media information distribution service
- Set up a robust security program for all Centennial Memorials.

On the day of PGC’s debut, the Knowledge Base will be accessible to decision makers with interest in the Centennial Memorials.

Any glitch in any one venue will shift glitch-happy media to a wrong atmosphere for the seminal worldwide event.

THE SECOND QUESTION (Continued)

- Besides the management information previously enumerated, extensive decisions are required regarding:
 - The mission and objectives of the presentations. **Due to multiple venues and multiple sponsors, it is unlikely that a single format and a single products mix will suit all simultaneously presented memorials.**

In its suggested plans, PGC advises that:

- I. A minimal core presentation be professionally prepared.
 - II. Locally-suited extensions and emphasis will likely not only improve the quality of the presentation but will allow proper “Thank You” clear messages and, simultaneously prevent some likely “Boo Boos.” Examples will illustrate.
(The Knowledge Base deals extensively with the above raised issues).
- The minimal core of a Holocaust presentation is proposed to consist of the following “Products”
 - I.1 A clear presentation of the crimes committed on the Jews – by virtue of What was Done.
 - I.2 A clear presentation of the crimes committed on Jews and humanity – by virtue of How it was Done.
 - I.3 A clear presentation of Nazi crimes by virtue of Why it was Done – and stays rather inexplicable to this day.

The above constitutes The Pain and Suffering Portion of the Program.

THE SECOND QUESTION (Continued)

- To augment the “Pain and Suffering” portion of the presentation requires additional minimal program segments:
 - I.4 Clearly explain why the causality of the Holocaust (“Why did you do it?”) is essential to minimize repetitions

Clearly explain why, in spite of stellar institutions being populated by stellar researchers have not arrived at the “Why” answers yet.

Incorporate the umbilical connection between Totalitarian/Deterministic cults and the atrocities/genocides for which the perps are the midwife
 - I.5 Clearly explain why the seeming consensus view of the Holocaust does not incorporate the past (going back 2000 years) pogroms/atrocities/genocides directed at Jews specifically throughout the millennia (with some respite periods ...)
 - I.6 Clearly explain why, in the wake of World War II, Totalitarian cultish garbage (in the form of Soviet Kool Aid) supported for 46 years (1945-1991) A Real World War III (fought by surrogates) on every continent with dire consequences for many peoples/nations/tribes.
 - I.7 Clearly explain that not all events are explicable. **Some events are created by malignant perps whose actions, based on coagulated world views beyond human grasp.** Consider the following:

THE SECOND QUESTION (Continued)

- I.7.1 “British troops were advancing on Neuengamme [A labor camp in northern Germany]
- Hitler has committed suicide a few days earlier [On April 30, 1945]
 - SS Chief, Heinrich Himmler, has given orders not to surrender the camps with their prisoners.
 - Guards put 8,000 inmates into two ships [Cap Arcona and Thielbeck]
 - “On May 3, 1945, a British Air Force squadron, [knowing nothing about the ships’ cargo] bombed and sank them.”

Retracing a Lost Life

El Paso Times 12/18/2006

How malignant can a mind be to commit such an atrocity?

- I.7.2 There exists no rational explanation for utterly dysfunctional international organizations that claim virtue and have none.

PGC provides numerous examples of the damages by the League of Nations and by the U.N. and other less than desirable international furuncles.

- They tolerate the existence of an asylum state (North Korea) – brainless, cashless, foodless, member of the Nuclear Club which can cause Armageddon on a inflicted moment’s notice (Just after its leader shot a hole in one on his first ever golfing appearance)
- Tolerate Iran – the most prolific terrorist state -- Ready to Achieve Nuclear Club Membership And together with North Korea, create a nuclear bazaar.

They Wish Armageddon to come and Allah will provide the “Final Solution”

THE SECOND QUESTION (Continued)

- To balance the Centennial Memorial “Pain and Suffering” presentation, it is necessary to present the following segments:

I.8 The Heroics of Jews

I.9 The Heroics of Non-Jews who assumed huge risks

These segments are absolutely required for reasons, discussed in depth, in the opinion pieces of the Knowledge Base.

Fortunately, a tsunami of real stories is available and must be used to prick the Nazi and other Totalitarian “invincible” balloons. Consider:

I.8.1 The heroics involved in numerous ghetto uprisings

I.8.2 The heroics of a vast array of non-Jews whose deeds cover the spectrum from

- Titanic efforts, including real major physical fights
- Enormous risk taking by hiding Jews
- A huge number of inventive meaningful resistance (e.g., the strain of typhus invented by two Polish doctors which actually panicked the Nazis and enabled effective resistance)
- A huge number of quietly getting food and clothing to the destitute peoples

It is imperative to introduce into the Holocaust Memorial the true notions that:

I.8.3 The Nazis weren’t what they are popularly perceived to be.

- They actually proved to be military idiots. Adam Tooze shows how they fought on four fronts simultaneously with huge resources eaten up by the “Jewish Front.” (A costly 4th front) – All in severe shortage of fuel, steel, chemicals and vast shortages of productive labor.

THE SECOND QUESTION (Continued)

- The SS weren't the dimwits hooligans who obeyed loudly barked orders. PGC sites data pointing to 25% of SS had Ph.D.'s and numerous psychiatric and eugenics geniuses who wanted to help nature to cull subhumans (all for improving mankind's chances to survive and live better lives ...)

I.8.4 The vaunted German industrial sector that chose to employ underfed, badly treated, sick demoralized and terrorized workers, proved to be no better than their military.

PGC contrasts the use of slave labor by the German industrial geniuses with the U.S. response to labor shortages. Good looking, smart, productive "Rosie the Riveter" not only produced products, she could fly the planes to embarkation depots to save Europe's bacon.

THE SECOND QUESTION (Continued)

- II. Given the availability of the minimal set of standard professionally prepared segments, we turn to **Desirable, Location-Specific Segments, to Improve Receptibility by Audiences.**

Although PGC has limited capabilities in this area, it does analyze in several opinion pieces (part of PGC's Knowledge Base) which advocate some logical segments.

II.1 Local Appendages to Standard Products.

- II.1.1 It is likely that the Memorial in Germany will be in Nuremberg – **the city that gave us all the “Nuremberg Laws”** (quite obnoxious). **PGC believes that the “Mark of Cain” that has sullied the German people for a long time, must at some point disappear.**

Only an incredible event can achieve that. At a minimum, a professionally prepared “Never Again” segment might be helpful to the “Get Out of Jail” card. PGC is not well suited to provide any final suggestions.

The decades long German effort, when adequately presented, providing “Mea Maxima Culpa” and an unequivocal commitment of “Never Again,” should work.

THE SECOND QUESTION (Continued)

II.1.2 It is likely that the Memorial in Poland will occur in Warsaw
 – the city that provided us all with a heroic uprising.

Poland believes that it has been subjected to what it characterizes as a bum rap re its treatment of Polish Jews both historically and in the 20th Century specifically.

Poland is a proud country. It resisted Soviet dominance with great courage. It had robust partisan groups giving the Nazis a hard time. Right at the start of WWII, the Nazis decimated the Polish Intelligencia. Polish resistance secured the stealing of the enigma which played a major role in allied intelligence operation.

Whatever they say it better be professionally prepared.

Numerous Poles have been recognized as major heroes by receiving from Israel the equivalent of the “Jewish Medal of Honor.”

With all the truly laudable thoughts above, it is true that:

It is not for nothing that the Nazis have created multiple camps in a land that they thought could actually tolerate them.

– Poland had experienced major pogroms just after VE Day (May 8, 1945) in many of its cities. The author of this paper was a “7-year-old journalist” witnessing a Wroclaw pogrom. REMEMBER: Jewish Blood of WWII has not yet clotted.

– Some Polish powerful idiots wanted to have a meat production factory in one of the many camps. Imagine the intellectual crime!

“No Ticky --
 No Shirty”

– To get a “Get Out of Jail” card, Poland will have to produce an exemplary “Mea Maxima Culpa” and mean it.

THE SECOND QUESTION (Continued)

II.1.3 It is not just Germany and Poland that need a “Get Out of Jail” card.

PGC is suggesting that Ukraine, Belarus, Argentina, France and others could benefit if their Holocaust Memorials contain some well-meant Mea Culpa **knowing that it is important to handle specific transgressions** that are **far in excess of just minor forgivable events.**

- Ukraine has had a long antisemitic history. Later, in 1919, it had what may be labeled as a “mini-Holocaust.”
- Argentina has accepted Dr. Mengele and Eichmann as legitimate refugees – **these perps are Satan’s offspring**

II.1.4 Some tailor-made appendages for local presentations should be highlighted. Specifically:

Denmark, as a country, did all the right things. It moved most of “its Jews” to neutral Sweden. Its Red Cross made exceptional efforts that the “Potemkin Village Concentration Camp” (Theresienstadt) treat its citizens and its young inmates more humanely.

It is quite rational to give that entire country a “Medal of Honor” and state why!

The same thought should be allocated to the United States of America for its clobbering the monsters.

PGC covers much more ground. We have specific suggestions for specific themes for specific countries.

THE THIRD QUESTION

Question #3: What makes you confident that a small startup company can achieve the mission as stated?

True Answer: If “Success” is REALISTICALLY and PRACTICALLY defined, a predefined minimal level of success can AND MUST be achieved

- The Following Guides PGC “Realism”:
 - Clear understanding that a “Pain and Suffering” message will be balanced by a clear “Heroics and Defiance” message.
 - There are numerous ways of delivering an insightful “Pain and Suffering” story as a centerpiece for all the simultaneously presented events.
 - The chosen centerpiece will be augmented with specific appendages suitable to the different audiences in the multiple presentation venues.
 - The same is true for the “Heroics and Defiance” segment.

Not bickering about the above requires a high degree of diplomatic skills.

PGC proposes a number of examples to avoid the urges of extracting the last tear, nor a false 007 heroics.

We expect that the examples will illuminate this aspect.

THE THIRD QUESTION (Continued)

- A clear understanding that the Centennial Holocaust events do not constitute some Oscar-competitive artistic events for entertainment.
 - Face it, people, nothing in the “Information Age” escapes the urge to present propaganda films, documentaries, dignitaries/celebrities’ speeches, live or recorded, Tik Tok influencers (who sing or dance) or customary (in the not too recent past) Soviet yearly festivals for the youth of the world “solidarity” events.
 - The events we advocate also reflect our urge to deliver clear messages. And these messages are not complicated.
 - Historically, millennia ago, major empires jostled to get prisoners and booty to display in victorious parades when coming home.
 - About a thousand years ago, major empires jostled to prove religious superiority of their God.
 - Hundreds of years ago, major empires jostled to acquire colonies and slaves to enrich the winners.

“History is a foreign country, THEY DID IT DIFFERENTLY THERE”
(Hartley, a British writer)

In those days, one could surrender or religiously convert and survive.

The survival choice was taken away from the Jews. They weren’t just “killed,” they were “EXTERMINATED” with terror, humiliation, pain and deceit, all meticulously planned.

THE THIRD QUESTION (Continued)

- We know that Holocausts don't just happen. Pogroms, atrocities and genocides (including very large-scale ones) happened all over the world and quite frequently. NOTHING LIKE THE HOLOCAUST HAS HAPPENED EXCEPT ONCE.

We have the urge, unstoppable, no matter how hard to realize, to tell:

NEVER AGAIN, NOT NOW, NOT LATER, NOT EVER!

- Our urge to tell is anchored in very solid ground.
 - PGC spared no effort in dissecting the term singular in describing the dementia, malignancy ultimate cruelty and other Satanic "Qualities" of the perpetrators.
 - PGC umbilically connects Totalitarian cults as the sole midwives of the Holocaust. No one can even conceive what these bastards did.
 - PGC connects the cumulatively created blood libels directed at Jews to an unstoppable sequence of atrocities over two millennia.
 - The wake of the Holocaust created a highly skilled imitator of atrocities against numerous tribes/nations/countries and cultures who promised a Garden of Eden Utopian Future which took 46 years to defeat (1945-1991). The "Kool Aid" was and is powerful enough to bring in even a newer wannabe "Holocauster," **the one that locks exits from big buildings for people who want to leave the buildings because of the ultimate police state "Diktat."** Think of Covid and China.

THE THIRD QUESTION (Continued)

- PGC makes a special effort to deal with the disoriented Jews who, by surviving, became subjects of pity, “Driftwoods of WWII,” PTSD’d and many who still cannot overcome victimology.

It is for these people that a vast effort is necessary to stress the Jewish heroics of resistance and physical actual war heroics.

- PGC strongly believes that non-Jewish heroics were EXHIBITED BY MILLIONS OF NON-JEWS, and we point to real data, consider just samples.

*** Entire Countries (Denmark) – Resistance

*** Entire Countries (U.S.A.) – Physical Annihilators of the swine
– Economic Recovery

In PGC’s view, Anti-U.S. sentiments have dug up here and there about “U.S. not doing enough” ...

COMPARED TO WHOM? – ANSWER THE QUESTION!

- *** Non-Jewish Titans of resistance of stellar character
Diplomats (Wallenberg, et al)
Doctors (Polish duo who spooked German authorities with a typhus strain and numerous others)
Churches and social workers (we especially like Irena)
Numerous partisan groups
And never forget Leski, PGC likes him a lot ...
- *** Non-Jewish giants of resistance of the “rogue” variety.
Schindler, Skorzeny and others
- *** Non-Jewish “Simple Folk” who hid, fed and kept silent

GOD BLESS YOU ALL!!!
