THE HOLOCAUST WARS – GUIDE BOOK

The Seeming Consensus

“Roughly Stated”: “Six Million Jews were KILLED by the Nazis in German occupied European countries during the Second World War” (“WWII” 1939-1945)

Somewhat Amended: “Six Million Jews were KILLED by the Nazis in their occupied Territories during their primary full effort from end of 1941 to mid-1945”
(A bit pedantic knowledge exhibited)

Could be Stated Better: “Six Million Jews were EXTERMINATED by the Nazis, while inflicting unthinkable pain and humiliation prior, during and after extermination during the 1939-1945 period”
(But not enough better)

What Is Deficient?

Singularity

Nothing in the seeming consensus view provides the idea of the INCREDIBLE SINGULARITY of the Holocaust crime. Of the four different fronts that the Nazis were involved in – West Europe, East Europe/Russia, North Africa and the Holocaust against Jews – the Nazis spent enormous resources on Jews extermination while short on material, fuel and manpower.

A Holocaust does not just happen.

The level of preparation, including live tests on extermination methods, handling continent level of logistics complexity, insanely meticulous and costly administration of detailed data all related to exterminating Jews and seeing that they constantly move towards death camps from “feeder” camps and the legalistic insanity surrounding all Holocaust related deeds.

Christina Sternberg has written a paper (“The Holocaust”) where she painstakingly dissects the singularity of the Holocaust.

IT IS AVAILABLE IN THE KNOWLEDGE BASE.

Other Deficiencies

Among the many other deficiencies of the seeming consensus view of the Holocaust are:

1. The avoidance of the strong ties between any sizeable atrocity, genocide (and eventually Holocaust), and the Totalitarian regimes, not just German deterministic utopia.
2. The avoidance of including the trauma for millions of Jews (and many honorable non-Jews) in the Holocaust's wake.
3. The avoidance of detecting a pattern of blood-libels cumulating for Jews in the past two millennia, heavily contributing to mistreatment of Jews by local European populations.
4. The near avoidance of stressing – as major crimes of colossal dimension deserve – the role of the psychiatric and eugenics cartels in all the criminal views and actions of the Nazis. The view of the SS as dimwits prone to excess obedience to few rotten hombies at the top is a factually fallacious view. The SS was the home for an enormous cartels' membership on top of a very large PhD contingent.

Jack Gostl has written a paper, "The Role of Psychiatry in the Holocaust" and presents a thorough review of the derangement.

IT IS AVAILABLE AT THE "KNOWLEDGE BASE."

What is an Alternative Proposed Meaning?

The Alternative [“Less Consensus”] Meaning of the Term “The Holocaust”

“The Holocaust is the Final Set of Events in a long, 2000-year sequence of pogroms, atrocities and genocides directed specifically at Jews in Asia, North Africa and Europe.

Being directed at Jews as a “Race,” it culminated in the extermination of six million European Jews in regions ruled by Germany in World War II (“WWII”), primarily between year-end 1941 and mid-1945.

It is a singular event, which unlike any other massive killing event, involved enormous allocations of resources in a multi-front war, meticulous planning due to significant shortages of fuel and raw materials, shortage of manpower and continental size handling of logistics.

It was, worst of all, executed by a cult, stubbornly clinging to a near-theological belief’s flimsy excuse for unprecedented hatred, utmost humiliation and maximum pain accompanying exterminations.

In its wake, it left a seriously disoriented Jewish survivor population (in the millions), a vast number of non-Jewish people of honor who couldn’t grasp a country gone berserk, a strange and sick admiration for the Holocaust implementor’s detailed orderliness (ya, ordnung ...), paving the way for a smart imitator who “cloaked” subjugation of peoples with Totalitarian “Kool Aid” and who extended maximum effort in the 46 years it lasted (1945-1991). To make the U.N. dysfunctional and, as refuse, left a whole thriving “small-fish Totalitarian U.N. membership” cling to the wish of a world government and a new world order with a cancelled past.”

- AS CHRISTINA STERNBERG POSTULATED:**
THE HOLOCAUST IS THE WORLD’S BIGGEST CRIME EVER:
- IT IS A CRIME AGAINST JEWS BY VIRTUE OF WHAT WAS DONE
 - IT IS A CRIME AGAINST HUMANITY BY VIRTUE OF HOW IT WAS DONE
 - IT IS A CRIME THAT IS INEXPLICABLE BY VIRTUE OF WHY IT WAS DONE

REPEATING: WHAT MADE JS ANGRY

- A world that was and is thankless for everything that the U.S. sheriff did for all winners and losers in the 20th Century's three World Wars
 - ▲ The U.S. Killed Rotten Empires In First World War – Ottoman and Austro-Hungarian, Wannabe Kaiser's Empire Dream Rotten Russian Empire
 - ▲ The U.S. Killed Totalitarian National-Socialist Beast in Second World War -- Seriously prevented the Brits and French to repeat First World War Transgressions
 - ▲ Freed up numerous countries from the Totalitarian Soviet domination and freed peoples from Colonialists rule in a prolonged WWII (46 years, 1945-1991)
 - ▲ Protected trade routes and acted as the "Economic engine" for the entire world economy
- Given the drubbing that Israel gets from international organizations and worldwide media, no wonder that JS is quite angry at the world – note the rush to re-sign the Iran Deal ("P5 + 1, 2015)
 - ▲ It is Iran, its surrogates and big power sponsors that clearly indicate that the Holocaust is not fully over.
 - ▲ Given European eagerness to do business with Iran clearly indicates the persistent tendency of Europeans (real thankless to the U.S. Sheriff) to support the Iran deal. The Holocaust wake has left incredible intellectual garbage to be cleaned.
