THE HOLOCAUST'S REAL WARS

1 THE FIRST AND MOST OBVIOUS WAR

The most obvious “Holocaust war” category is the significant skirmish **surrounding the effort to nail down the meaning of the term “The Holocaust.”**

- ▲ The popular meaning of the term “The Holocaust” seems to be a consensus view.

“The Holocaust is the criminal event of killing six million European Jews in World War II by the Nazi-ruled Third Reich.”

The above is close enough to the majority popular view.

- ▲ It is Popularly Very Widely Known that, for eight decades, the Largest and Most Thorough Research Project (Incorporating humongous data bases) was undertaken by government institutions, academies, museums, thinktanks, and ...

It is Popularly Believed That:

- ▲ Massacres and genocides are nasty historically frequent occurrences and the real bad ones should be remembered to minimize future occurrences.
- ▲ “Remembering” usually means:
 - Recounting (respectfully to victims and families) the atrocity, condemning the crime perpetrators, and urging to not cease remembering.
 - A well-prepared speech by some political leader or a respected celebrity to attest the importance of the occasion.

The Alternative [“Less Consensus”] Meaning of the Term
“THE HOLOCAUST”

- ▲ “The Holocaust is the Final Set of Events in a long, 2000-year sequence of pogroms, atrocities and genocides directed specifically at Jews in Asia, North Africa and Europe.

Being directed at Jews as a “Race,” it culminated in the extermination of six million European Jews in regions ruled by German in World War II (“WWII”), primarily between year-end 1941 and mid-1945.

It is a singular event, which unlike any other massive killing event, involved enormous allocations of resources in a multi-front war, meticulous planning due to significant shortages of fuel and raw materials, shortage of manpower and continental size handling of logistics.

It was, worst of all, executed by a cult, stubbornly clinging to a near-theological belief’s flimsy excuse for unprecedented hatred, utmost humiliation and maximum pain accompanying exterminations.

In its wake, it left a seriously disoriented Jewish survivor population (in the millions), a vast number of non-Jewish people of honor who couldn’t grasp a country gone berserk, a strange and sick admiration for the Holocaust implementor’s detailed orderliness (ya, ordnung ...), paving the way for a smart imitator who “cloaked” subjugation of peoples with Totalitarian Kool Aid and who extended maximum effort in the 46 years it lasted (1945-1991) to make the U.N. dysfunctional and as refuse left a whole thriving “small-fish Totalitarian U.N. membership” cling to the wish of a world government and a new world order with a cancelled past.”

2. THE INTELLECTUAL CLASHES

- ▲ This war is going to be seriously occurring between two sets of Jewish groups, **BOTH VERY MUSCULAR FIGHTERS.**
 - (1) The Progressive Group – primarily left-leaning Jewish organizations.
 - (2) The Conservative Group – primarily center-right Jewish organizations.

- ▲ What is the war about?
 - The answer is contained in PGC’s preferred alternative version of the meaning of “The Holocaust.”
 - **The Progressive Group will never agree that the Holocaust is, by definition, the child of most Totalitarians.** This view, however, is the centerpiece of their opponents’ views.
 - **The Progressive Group believes quite strongly that the Holocaust happened, Just Happened.** They say that the real enemies of the left-wing organizations in Germany in the 1920’s determined that eliminating Communists and their many Jewish supporters will erase the shameful loss of WWI. Thus, explaining the extreme hatred of Jews is not some flimsy Aryan blood purity imperative as the Fascists’ conveniently postulate, but a seemingly real cause.
 - **The Progressive Group has had, for decades, a loathing to attack the Soviet Union in any way at any time. After all, the Soviets have been a major contributor to destroying the Holocaust monsters.**

This loathing has prevented exposing the Soviet Totalitarians and shielded them from criticism re the numerous hot wars, tepid and cold wars initiated by the Soviet surrogates over the entire globe in the 1945-1991 period.

- The Progressive Group has, for decades, strongly criticized Israeli policies re settlements building on “Arab soil” and harassment of Arabs expressing yearning for a Palestinian state. The Progressives claimed that their criticisms come from “Tough Love.”

The Jewish Progressives in the U.S. gain much energy from a bunch of Israeli groups whose criticisms of Israeli policies provide “Evidence” of Israeli misdeeds.

It is well known to all that there are no saints in the MidEast region. With that knowledge, JS has picked a documentary, “The Little Town of Bethlehem,” produced by an award-winning writer/director – Jim Hanon – who tried hard to be “fair” and “truthful.” JS generated a critique of this little film in the year that the “Arab Spring” was on all commentators’ praising lips (2011).

PGC has generated opinion pieces, in addition to the many relevant stories embedded in the primary and companion manuscripts, all aimed to cover substantive positions by both Progressives and their opposing Jewish groups.

To lower the temperature of the heated debates, the knowledge base contains forecasts of the other Holocaust wars, the incentives for many warring factions to drop all references to Watergate and stop cursing in rich languages specifically designed for nasty encounters (Arabic and Russian come to mind).

3. THE NEXT “REAL WAR”

- IT IS ALL ABOUT THE CENTENNIAL

- ▲ An important and probably seminal event is forthcoming -- THE HOLOCAUST’S CENTENNIAL MEMORIAL.
- ▲ Forgetting, for a moment, that the year to be chosen (2035) has not been agreed upon (yet). For the purpose of understanding this Holocaust war, **we pick the year 2035 as the Centennial Year**. It is simply based on the year that the Reichstag has passed the Nuremberg Laws – essentially a Declaration of War on the Jews.
- ▲ It does not take excess brain power to know that the Centennial Remembrance year will cause multiple issues to surface – **resulting in considerable kerfuffles**.

It is quite likely that the United Nations will initially “suggest” and later “demand” that it will be a U.N.-sanctioned Memorial. The U.N. loves such shindigs.

Remember that, not long ago, the U.N. arranged for “A Year of the Woman” celebration in China – a country that historically killed only little female babies. The chutzpa exhibited by the U.N., since its inception, is boundless.

This labyrinth of little leagues of Totalitarian dictators can do only one thing competently – it can file fiery and poetic speeches (in five languages) and resolutions. Multiple leeches, attached as NGO’s may, once in a blue moon over Timbuktu (my favorite city), rise to a challenge such as securing better working conditions for cobra snake handlers at the market.

[JS was an Israeli Military Intelligence Officer covering Gaza in 1959 involving continuous skirmishes with U.N. "Peace Keepers." JS' experience – "Close and Personal" – dictates his loathing and disdain and no redeeming occasions.]

The sins, transgressions and stupidity of the U.N.-Labyrinth needs no proof **except for the rare occasions such as the Centennial Memorial.**

The reasoning for rejecting U.N. sponsorship of the Centennial are simple:

1. The ineptness, fully on display for over seven decades, created a formula for handling shindigs:
 - (a) Form a committee (50 members sounds right ...). Sub committees will be formed to satisfy a myriad of demands and balancing interests of the different important countries.
 - (b) Opening speeches (averaging one hour each, simultaneously translated and transcribed) covering the suffering of every aggrieved group **that is permitted to be mentioned. No Tibet, Uyghurs, Chechens, any African big massacre (e.g., Darfur, the General in charge of the massacre is a member of the committee) no Georgian, Ukrainian ... etc., etc...** It takes several long weeks for the introductory speeches.
 - (c) The subcommittee in charge of preparing the plan for the Centennial Presentation will be having hearings. Ten members involved. They represent the permanent Security Council Countries ("P5") and Germany, now dubbed "P5 + 1." At U.S. insistence, Israel will be heard to make a case for a proper and dignified memorial. Arguments ensue, and months later, the subcommittee will be reassembled to report on progress.

We could continue this Shaggy Dog story, and knowing the outcome in advance, we spare the reader the pain of reading all the intermediate gobbledygook.

A report is issued After Five Years. The Report:

- **Condemns “Man’s Inhumanity to Man”**
- **Strongly emphasizes “The vast racist behavior, homophobic and criticizes practices and disrespect for rights of discriminated groups under extended Colonial Rule by Supremacists with lack of empathy for vast victims’ groups who were jailed, tortured and killed protesting their fate.**
- **Has specific recommendation for the major culprits – “Who Know Who They Are” – covering: Mandatory education programs, worldwide Mandatory restitution to victims.**

Don’t worry, People. The recommendations were generated to have favorite NGO’s get contracts to “Plan and Educate” and implement. The \$ amounts were all set way back before any efforts were exercised.

The committee “Bribed” Israel with customary Kool Aid consisting of solemn promises to:

- Reduce the number of vile condemnations of Israel from 1000 to a small, less “tone-ominous” 50 condemnation between start and 2035 Memorial.
- No indictments of Israel for its “Crimes” over seven decades and no imposition of sanctions.

4. NAILING DOWN “WHY DID THE HOLOCAUST HAPPEN.”

■ The Geopolitical Skirmishes About Nailing Down the Question: Why Did the Holocaust Occur?

▲ So far, we wonder, why this question has not been nailed after all the years (since 1945), all the talent (thousands of researchers) in hundreds of stellar institutions worldwide, near infinite budgets, enormous and reliable data (including the key culprits near perfect record keeping).

▲ It looks like we will be wondering a lot more years unless some of the following occurs:

1. Answers, even if partial only, to much easier questions, **so that the big question can be attacked better and faster.**
Try some of the following:

- 1.1 Why the hell did numerous pogroms occur in Poland after just months from the total collapse of the Nazi beast?

Jewish blood spilled in Holocaust has not yet clotted.

No and's, if's and but's are acceptable.

If Poland wants to get a “Get Out of Jail Pass” –

and based on recent indications, Poland seems to want such a pass and has a sober way to deal with idiots who wanted to convert a death camp to a large meat products enterprise (sausage, me thinks ...).

- 1.2 Same question directed at Baltic States, Ukraine and Belarus.

- 1.3 What is it about Argentina, accepting Eichmann, Mengele and their ilk? **Argentina has never accounted for the destruction of a thriving Jewish Center in Buenos Aires.**

- 1.4 What happened to New Zealand – a truly NICE country – which published official maps without Israel on it.
- 1.5 What happened in Ukraine in 1919 where massive pogroms occurred and the information was whitewashed?
- 1.6 Why does a President of France refer to Israel as “The Little Shitty Country” **not remembering the French refusal, after a colossal/fast defeat, to deliver their Navy to the Allies and necessitating the sinking of this fleet.** This question is serious. It is directed at a country that insists to have all their encounters with Totalitarians end in disasters.
- 1.7 What is it about the U.N. which tolerates the N. Korea asylum, the Armageddon devotees of Iran, the Assad repeated massacres, the 11,000 Generals of Saddam’s Army, the idiots in Egypt’s Moslem Brotherhood unseating Mubarak, the unstoppable attacks on Israel from the first day of its birth to today, **and ... and ...**

And we didn’t Even “Scratch the Surface” of this great list – we keep a copy for better days to come.
